

Gareth David Weaver

hello@garethweaver.com · www.garethweaver.com · @garethdweaver
Balham · South West London · UK

Education **University of Exeter** (2006-2009)
BSc (Hons) Biological Sciences - 2:1

Skillset **HTML** - Extremely proficient at creating succinct markup
CSS3, Sass, SCSS and **BEM** - Excellent understanding
ES6, CoffeeScript and **Typescript** - Multiple projects
React and **Redux** - Great understanding
VueJS - Good understanding
Angular 1, 2 and **ionic** - Developed with on multiple projects, **REST APIs**
GatsbyJS, Middleman, and **Nuxt** - Static site generators
GraphQL - Good understanding
Google Closure, Bracket, Jinja, Hurcules and **Glue** - For Google projects
jQuery and **Handlebars** - Great understanding
Yarn, npm, Gulp and **Webpack**
Ruby on Rails - Basic but keen to further my knowledge
Rspec and **Protractor** - E2E testing
Docker Compose - Basic usage
PHP and **Wordpress** - Intermediate knowledge
Bootstrap, Hurcules, Glue and **Foundation** frameworks
Jinja and **Haml** - Templating engines
Git, Github and **Bitbucket** - Great CLI understanding and branch management
Bitrise - Basic setup for CI
Photoshop - Over 14 years of experience
Illustrator and **InDesign** - Capable and confident
APIs - Youtube, Facebook, Vimeo, Twitter, Google Maps and Tumblr
Campaign Monitor, Mailchip and **SmartFocus** email marketing
Management and **Training** - Of junior team members and clients
Scrum and **Agile** - Familiar with both work flows

Experience **Kortical - Contract - Machine Learning Accelerator** (February 2019-Current)
Initially a three month contract to clean, refactor and modernise the front-end of Kortical's machine learning web GUI. I provided support advising on front-end architecture, systems and build pipelines while auditing the current legacy markup. As directed I implemented a 'halfway house' re-skin of the application before working closely alongside a designer to rebuild their [public facing website](#) using GatsbyJs, React and Sass. The site is currently statically generated from yaml and markdown files using GraphQL queries with the mind in the future to migrate to an API.

Experience **Breakthrough Media - Contract - Comms Agency** *(November 2018-January 2019)*

A two month contract working within the **digital team** bug fixing and maintaining multiple VueJS and legacy websites for the Home Office and various charities. I also worked with Nuxt to help create a starter repo for future projects as well as writing bespoke tracking services for Google Tag Manager.

Toaster - Contract - Digital Agency *(August 2018-September 2018)*

As part of a small team we rebuilt the public facing side of **Google Retail**. The content was delivered from Kintaro and templates were compiled from Jinja, SCSS and ES6 to build a static site. I helped build components using the Google frameworks Glue and Hurcules.

BusinessThreeZero - Contract - Business Consultancy *(March 2017-July 2018)*

An extended contract working across multiple Angular2 and Ionic applications writing Sass and Typescript as part of a close knit in-house digital team. Our team solved advanced technical issues which arose from a modular multi-tenant platform. Additional responsibilities included training of other developers, streamlining our development processes and build pipelines, and improving intra business relations between the development team and the **consultancy team**. I was also heavily involved in generating product ideas and concepts as well as regularly providing an interface between the project manager and UI designers.

Clubhouse Studios - Contract - Creative Agency *(September 2016-November 2016)*

Worked to finalise the 'My Account' portal of **Byron Burger's** website writing Handlebars, SCSS and jQuery. Completed a fully bespoke **tumblr theme** fed via the rather basic tumblr API for Stella McCartney written in ES6 and SASS. Also assisted the development of a microsite for Stella McCartney writing VueJs to deliver an interactive questionnaire and Facebook API integration to extract photos from user's tagged photos and uploaded albums.

Big Sofa - Digital Media Company *(September 2014-August 2016)*

Full time employment with broad responsibility. I worked on multiple AngularJS and Rails applications writing CoffeeScript, Haml and SCSS as well as basic Rails as part of a small agile development team. While managing and training junior members of the team I also directly managed international clients. I was heavily involved in leading and delivering a project from concept to completion for CMI Unilever. Additionally as a front-end specialist it was my responsibility to generate UI solutions and deliver interface designs to a high standard.

Big Sofa - Contract - Digital Media Company *(June 2014-September 2014)*

A three month contract working with Bootstrap, Haml, SCSS and CoffeeScript to rebuild the front-end of the **Big Sofa** web app based on pre-provided designs. I worked between the project technical lead and the junior development team.

Selfridges & Co - Contract - Online Department *(May 2014-June 2014)*

A three week contract placed within **Selfridges'** online team. I worked closely with the design team to construct markup for the online store and website. I was also tasked with the templating and testing of responsive marketing emails delivered via SmartFocus.

Experience **Yello Studio - Web and Creative Agency** *(Jan 2011-September 2013)*

Worked as a key member of the **studio** supporting both the technical and creative directors while also handling agency clients. I worked independently and collaboratively on larger projects providing UI solutions as well as attending client meetings, managing clients and delivering training. My role covered bespoke design, front-end development and back-end development, CMS integration, email marketing and analytics.

Interests **Codebar**

I coached at **codebar** on a weekly basis to help people interested in coding improve their programming skills. This often involved instruction as well as mentoring students with some really cool personal projects.

Director of South London Touch Rugby Club

I manage and run a social **touch rugby club** which meets every Saturday to play mixed touch. Additionally I represented South East England in the 2018 Nationals.

Everest Base Camp

I completed a two week return trek to Mount Everest Base Camp in Nepal. While summiting Kalapathar we reached our highest altitude of 5643m.

Rugby Union and Rugby League Teams, Half Marathons, Tough Mudder, Snowboarding.
